Health Warning & Installation

Health Warning

Please read before using this computer game or allowing your children to use it.

A very small proportion of people may experience a seizure or loss of consciousness when exposed to certain visual images, including flashing lights or light patterns that can occur in computer games. This may happen even with people who have no medical history of seizures, epilepsy, or “photosensitive epileptic seizures” while playing computer games.

These seizures have a variety of symptoms, including light-headedness, dizziness, disorientation, blurred vision, eye or face twitching, loss of consciousness or awareness even if momentarily.

Immediately stop playing and consult your doctor if you or your children experience any of the above symptoms

The risk of seizures can be reduced if the following precautions are taken, (as well as a general health advice for playing computer games):

- Do not play when you are drowsy or tired.
- Play in a well-lit room.
- Rest for at least 10 minutes per hour when playing the computer game.

Installation

For **Lock On: Flaming Cliffs 2** installation you must have installed either **LOCK ON: Modern Air Combat** or **LOCK ON: Flaming Cliffs**.

Insert the **Lock On: Flaming Cliffs 2** disk in your DVD drive and allow the automatic installer to begin. Then follow the on-screen instructions.

Note: You will need to be logged into Windows with Administrator rights in order to install the game.

If the installer does not start automatically, please go to My Computer, double-click on your DVD drive, find the Setup.exe program, and double-click on it to start the installer.

Using the serial number provided, you will be required to activate your **Lock On Flaming Cliffs 2** purchase prior to playing. During the Activation process, the copy protection system will create a hardware profile of your system and compare that to your current system each time you start the game. If there has been a significant change to your computer like replacing significant hardware items or changing your Operating System, you may be required to reactivate your purchase. You are provided eight Activations. If you require more after using all the ones provided, you may contact customer service at **support@lockon.ru**

Each license (disk) has 8 activations and 10 deactivations.

You can activate your game up to 8 times.

If StarForce detects changes to your computer hardware/software as described below, an activation will be required. The game include 8 (eight) activations and 10 (ten) deactivations. It's important to note that deactivations are utilized to save your activations when altering your PC hardware/software. Before conducting a PC upgrade/OS re-install, you can deactivate the product and when complete, reactivate without a loss of activations.

<http://www.star-force.com/support/users/deactivate/>

An activation will be required if the hardware/software changes exceed 12 points as rated below:

CPU ID: 13

Windows PID: 3

Computer Name: 3

Hard drive volume serial number: 3

MAC address: 6

RAM amount: 6

If you just uninstall **Flaming Cliffs 2** and then reinstall it again on the same PC **without** reinstalling your operating system or changing hardware, you do not need to use a deactivation.

For further details on the copy protection system, please see the StarForce FAQ:

<http://www.star-force.com/support/users/group2.php>

In addition, a step-by-step (de)activation guide is available below and will also be included in the product documentation:
